

Friends, a Last Minute Checklist before the actual competition(s):

- 1) Check the batteries for their output voltage
 - 2) Check the nut, bolt & screws for proper fitment
 - 3) Check wire connections and soldering
 - 4) Use cable ties to avoid entangling of wires
 - 5) Try to color code the wires(+ & -ve) and number the parts for easy replacement
 - 6) Try to carry spare items like motors, batteries etc. if possible
 - 7) Re-read the rules carefully before the event
 - 8) If possible take a practice run/play on the original platform. If not possible make a prototype of a task (ex: in case of pick n place) at home & practice.
 - 9) Avoid arguments with judges & Co-coordinators.
 - 10) Stay calm...don't panic and don't get nervous &/or excited.
 - 11) Work as a TEAM
 - 12) Try to take pictures & videos of your performance. This will help you improve next time.
- Cheers & Best Luck!!!!

Team MASS
